Profile

Highly motivated and passionate technology enthusiast with solid experience in web development and growing expertise in project coordination. Experienced in leading and developing full-stack projects using React.js and Node.js. A fast learner with a strong passion for problem-solving, teamwork, and delivering smart digital solutions. Currently expanding skills through Azure DevOps training.

Professional Experience

Assistant Project Manager & Developer
Begize OptiMAX
05/2025 – Present | Addis Ababa

- Supported project planning, documentation, and coordination for donor-funded digital projects.
- Managed project and operational datasets for internal teams and partner NGOs.
- Served as ERP Manager, ensuring smooth data integration and workflow alignment across departments.
- Prepared data-driven performance and progress reports to support strategic decision-making.
- Assisted with technical troubleshooting and improvements to internal digital tools.

Full-Stack Web Developer (Personal Projects)

- Developed full-stack applications using React.js, Node.js, Express, MySQL/MongoDB, and Tailwind CSS.
- Designed responsive UI/UX interfaces and built backend APIs with authentication.
- Used Git and GitHub for version control and applied clean, modern coding practices.
- Created complete applications such as dashboards, user management systems, and portfolio sites.

App Factory Academy – Wollo University | Sep 2024 – Feb 2025, Kombolcha

- Trained and mentored female students in web development and real-world project

execution.

- Delivered lessons on React.js, Node.js, Git, and modern software development practices.
- Supervised student projects, guiding teams through coding, documentation, and deployment.
- Demonstrated leadership, teamwork, and strong communication in a collaborative learning environment.
